Using the Knew Concepts Precision Saw Frame with Advanced Screw Tensioning

US Patent #8,347,513

V3.2

Loosen the tension EVERY time you take a blade out, before placing a new blade in both blade clamps. It usually needs to be loosened two or three turns. Too much loosening will allow the blade clamp to fall out of the saw. Refer to picture above for reassembly order. Please try not to do it again.

Tensioning

The knurled brass knob is the tensioning mechanism.

- To increase tension, screw it 'in' towards the clamp.
- To release tension, screw it 'out' away from the clamp.

The knob must be unscrewed slightly to reset tension during every blade change. After clamping a new blade, twist the knob to return tension to desired level.

Check the Saw Blade length

Before sawing, check the length of the saw blades.

The standard length for jewelers/fret saw blades is 5 1/8" (130mm)

There is a blade ruler built into the spine of your saw.

There are flat spots in the windows along the spine that are exactly 5 1/8" apart, as indicated in the photos above. Lay the blade between those two flat spots. If it's the same length, it's the right size.

- If the blades are too long, use wire cutters to shorten the blades.
- Blades that are shorter than standard will not work.

Dear customers, we are working on finding a solution to deliver to the European union since July 1, 2021, but unfortunately we need to stop the sale to the 27 EU states until we find a solution that best suits both parties and reduces the authorization times and unnecessary importation duties and management rates. Until we find an appropriate solution that our EUE's customers can buy on our eBay platform without problems, the link is below for our customers in the EU and want to buy us that they still can do so. Visit our eBay store at the link below: visit our EBAY HERALS store apologies for any inconvenience caused and hope to present the sale of the EU very soon. We offer free delivery of continental delivery of the United Kingdom on all our articles so that it knows exactly what will pay before reaching the payment so that there are no surprises. Dispatch times All orders received before the 12 p.m. We do not send on weekends or holiday, if any of the items are bought in these days, the following work day will be sent after receiving the authorized payment. Once your order has been sent, we will communicate with you by email. Allow the delivery times established in the details of the frankness before contacting us to when the delivery will take place. Delivery times will vary according to the services you have chosen, but allow up to 7-10 working days for delivery in case of postal delays.
